Introduction

American Fulbright Scholars, 1993-94

Each year about 1,000 Americans are awarded Fulbright grants to lecture or conduct research abroad. Grants range in duration from the full academic year of the host institution or country to a semester or less.

About 70 percent of the awards are for university lecturing, usually in a field of importance to the host institution. Many lecturing awards allow opportunity for research, and research scholars may undertake occasional lecturing. Terms of awards vary from country to country, but generally include round-trip travel, basic health insurance, and maintenance allowances.

Most awards require the doctorate and appropriate professional experience. While English is acceptable for many assignments, fluency in a language is sometimes required. All applicants must be U.S. citizens.

The Directory

This directory lists nearly 1,000 American scholars who recently received Fulbright awards for university lecturing and advanced research abroad. They will hold various appointments in over 100 countries during the 1993-94 academic year. The dates that appear at the end of the entries indicate when each scholar will be abroad. A few of the dates may change, however, since specific information was unavailable when the directory was printed.

The descriptive information for each scholar is arranged according to academic discipline. Scholars are also listed alphabetically, by host geographic area, and by home state in the indices. Scholars in special programs or projects are cross-referenced in a separate index.

The directory lists scholars whose grants were confirmed as of October 1, 1993. Additional grants may be issued after this date, and scholars receiving those grants will be listed in a separate section of the 1994-95 edition of the directory.

Following the Special Programs Index is a list of 1992-93 scholars whose grants were confirmed after October 1, 1992, and whose names did not appear in last year's directory.

Participants in the following short-term seminar programs are listed immediately after the discipline section:

- U.S.-Japan International Education Administrators Program
- U.S.-German International Education Administrators Program
- Fulbright German Studies Seminar
- South America Today
